

Collision & Kustoms

Adam & Kristy Gensler built a new body shop in Allen. They started their collision repair and vehicle restoration business in 2011. The shop was located at their residence in rural Dixon County which is only accessible via a gravel road. Customers simply didn't want to travel on a gravel road to get there or felt they will not be able to find it. In addition to a great new location in Allen, they added a new top-of-the-line paint booth which makes their business more appealing to customers.

Services include major and minor collision, minor frame straightening, glass, rust repair, paintless dent, vehicle exterior detail, full frame off restoration, custom paint, and full paint jobs.

NED, Inc. provided technical assistance and loan funds to expand their business. NED, Inc. and the Gensler's partnered with Security Bank in Allen to finance the expansion. Two jobs were maintained.

Hours of operation:
Monday - Friday: 8:00 am - 6:00 pm
Saturday: 9:00 am - 12:00 pm
