

Trent Thompson purchased the Pierce Locker where he has worked part time for the past 10 years. The locker is a staple of the Pierce community and is well known for great service, quality products, and generosity in the community. The number one thing that the Pierce Locker is famous for is their Wragge Dogs. For miles around, people talk about Pierce Wragge Dogs. The locker also sells products over the counter, such as hamburger, ribeye steaks, cheese, Wragge hot dogs, polish dogs, brats, beef sticks, summer sausage, pork sausage, bacon, and dried beef. The locker also does custom smoking, custom packaging, and freezer locker rental.

Northeast Nebraska Economic Development District (NENEDD) provided a business plan and technical assistance and partnered with Midwest Bank in Pierce for the acquisition. The project maintained three full-time and three part-time jobs, including Trent.
